

Wild Shots™ Recipe and Instructions

RECIPE

INGREDIENTS

30 Wild Shots Syringes	60 Wild Shots Syringes
4 3oz boxes of gelatin mix 4 cups of hot water 4 cups of Vodka or alcohol of choice	8 3oz boxes of gelatin mix 8 cups of hot water 8 cups of Vodka or alcohol of choice

You may have to make your Wild Shots in batches depending on the size of your bowl and whether you have more than one color of gelatin.

1 3oz box of gelatin will fill 8 Wild Shots syringes

INSTRUCTIONS

1. Place gelatin mix in a large mixing bowl. Pour in hot water and whisk until gelatin is completely dissolved.
2. Add vodka or other alcohol of choice and continue to mix
3. Fill syringes with liquid gelatin, and place caps securely on tips
4. Refrigerate filled syringes for 2-3 hours or until set
5. Store in refrigerator, cooler, or ice bucket
6. Enjoy!

TIPS

- Before filling the syringes, **pull the plunger** back and forth **to break the seal**.
- **Fill syringes with liquid gelatin** before refrigerating to fill completely without air bubbles
- Store prepared syringes in a **refrigerator, cooler, or ice bucket**
- **Replace caps immediately** after use to reduce chance of a mess, and to prevent losing them
- Make **multiple flavors** to cater to your party-goers
- Don't forget to **remove the cap before consuming** to avoid a gelatin explosion!
- If you prefer **easier shots, fill halfway**
